FROM EXECUTIVE SECRETARY'S DESK:

Ads for the Seed Pod: As we all know the Seed Pod must pay its own way. The only way this can be done is through the sale of ads. The job of selling ads can't be given to one person due to the large area that we cover. It must be the job of each Chapter or members at large to sell enough ads to pay the way. At the February board meeting there will be work sheet blanks passed out to all the Chapters present. You will find one of these work sheets in the center of this issue. If you know of some concern or individual willing to purchase an ad use it and mail in the copy and check direct to me. If there are no ads there will be no Seed Pod.

Color Charts: The British Horticultural Color Chart that we use in the AHS has gone up in price. If you would like to purchase one the price is now $15.00. Send in your check to me and I will get one on the way to you.

Seed Pod Deadline: The deadline for the next issue of the Seed Pod will be April 1st. That is not too far away so if you have material to present or ads to turn in please help by getting them to me by this date. I need your help to get the issue out on time.
